

August 15, 2023

To Whom It May Concern,

This is a recommendation letter for Ahana Kotibhaskar, a remarkable 16yr old student from Wycombe Abbey in Buckinghamshire, UK, who undertook an impactful two-week internship with our fintech company, CrediLinq.Ai, in Singapore, which commenced on July 8th and concluded on July 24th 2023.

During her internship, Ahana was assigned two key tasks – 1) E-Commerce research, market mapping, competition review, and go-to-market approach especially for Amazon sellers; and 2) helping us get a head start on the regulatory requirements around General Data Protection Regulation (GDPR) for Europe.

Ahana reported directly to the Head of Growth and Chief Technology Officer. She was proactive in reaching out to her managers and other team members to work collaboratively and seeking guidance on two diverse areas, which showed strong maturity and professionalism. She got up to speed quickly on the business and on the two assigned topics, which enabled her to contribute positively. She is a good communicator and was able to put forth her ideas cohesively.

Ahana published a structured report summarizing the topics, finding, recommendations and next steps. Her methodical approach and attention to detail ensured that the report she prepared was comprehensive, accurate, and insightful.

Overall, Ahana Kotibhaskar's internship with CrediLinq set the stage for us to accelerate the initiatives and launch a product and helped us gain insights on GDPR. Ahana's dedication, ability to understand new topics and her curiosity are right ingredients for a promising future ahead of her.

I wholeheartedly recommend Ahana Kotibhaskar for her next internship and we would be happy to have her on board again. She possesses the qualities and potential that will undoubtedly lead her to great success in her academic and professional endeavors. It was a pleasure to have her as part of our team.

If you have any questions or require further information about Ahana's internship, please do not hesitate to contact me.

Sincerely,

Deep Singh
Founder and CEO
